Herr Hitler Intends To Press Strong Action Against Vichy: Movement Sponsored By Notorious Pro-Nazis

Once again, despite all the interesting news of actual fighting, all eyes are turned on France where a new National People's Party has been formed based on familiar Nazi aspirations, states a London message.

Indications are that events have moved swiftly to a climax in Vichy and that in the next few hours the world will hear from Marshal Petain himself what decision he intends to take."

Preparatory Phase To Occupation

NAZI-CONTROLLED "LANGUAGE IN IS ULTIMATUM

LONDON, Feb. 2 (Renter)-The crisis at Vichy is widely com-

mented on in the Sunday Press. A sudden move by the Germans to over-run the whole of France in order to threaten Britain in the Western Mediterranean is a possibility, writes the SUNDAY EXPRESS whose New York correspondent adds that the extremely violent attacks in the Paris Press against Vichy are considered in Stockholm to be a preparatory phase to German occupation.

M. FLANDIN

The SUNDAY TIMES diplomatic correspondent believes the next few days, or even hours, may reveal the final outcome of the Hitler-Petain correspondence, pointing out that the language in the German-controlled Paris Press yesterday amounted to a German ultimatum.

He quotes the Paris paper L'OEUVRE which writes: 'If Vichy men hang on to power one day longer, ground will be irremediably Cont'd Page 7. Col. 1

report from Tokyo, was 65 to 45. Opinion in Australia, however, is inclined to minimise this view as it is felt that Italian difficulties and the development in United British and German air activity " States will serve to prevent Japan for the week ending at dawn on with America.

M. LAVAL

WHEN NEWS OF THE FORMATION OF THE NEW PARTY IN PARIS WAS FIRST MADE KNOWN BY BER-LIN. OFFICIAL CIRCLES IN LONDON WERE QUICK TO REALISE THE REAL MOTIVES BEHIND THIS CYNICAL EXPERIMENT WHICH BEARS THE STAMP OF GERMAN ORIGIN.

The Party is sponsored by the most notorious pro-German Frenchmen, among them M. GOY, M. TROY, and M. FONTENOY who is stated to be "close to Laval."

M. Fontenoy, in announcing the new Party, said that it was no use to wait for Britain to be defeated by Germany for then it would be too late. Vichy was not collaborating with Germany now. He described M. LAVAL, who it is believed will lead the Party, as a guarantor of collaboration.

M. Fontenoy attacked those Ministers who had plotted against Laval, and made a direct attack on M. FLANDIN.

But all the news available from France shows that the French nation has not in its heart accepted defeat.

The announcement from Berlin yesterday of the formation of a new political party in Paris head. ed by M. Laval was commented upon in London.

The new Party was meant to suggest that it has been set up to dispute the authority of Marshal Petain and his Ministers.

The commentator went on "to state that the formation of this party indicated that Herr Hitler intended to press strong action against Vichy.

By Greeks COMPLETE ROUT OF ITALIANS LONDON, Feb. 2 (Reuter)—An

important mountain peak known as 1960, originally organised as a defensive position by the Government of former King Zog of Albania, was captured on Friday by Greek troops at point of bayonet after an all night hattle.

This is among the several successes in the various sectors of the front reported by the Athens Radio last night.

The Italians fought with great stubbornness and determination but were overcome in the end by the furious onslaught of the Greeks, and after being dislodged, fled in disorder completely routed.

In the hasty flight from this, one of Albania's most formidable peaks, " the Italians abandoned very great quantities of war material.

SEVERE THRASHING

Another success on Friday occurred in the coastal area when the Italians threw very strong forces into a big counter-attack and received the most severe thrashing they have had since General Cavallero assumed com-

After suffering terrible losses, the Italians retreated in disorder and were unable to reform their scattered ranks and the Greeks, after pursuing enemy troops beyond their original positions, took possession of a line of peaks 5,000 feet high dominating the whole area.

To the north-east of this position, another lofty peak was captured with heavy Italian losses. All Italian counter-attacks were thus smashed and the enemy sustained severe defeat.

The Athens Radio added: "The Greek Army is now advancing steadily and successfully towards objectives set by the Greek Command."

CIVILIAN CASUALTIES

The number of civilian casualties and damage caused by enemy air raids on Greek towns in December is as follows: 67 killed, 93 wounded, 160 homes and 50 refugee houses destroyed, and 300 homes slightly damaged in various Greek towns; five churches and three hospitals hit by bombs, states a London message.

Reported Rift Between Army And Fascists

Italian Generals Doubtful

LONDON, Feb. 2 (Reuter)-The Pascist regime in Ita'y is believed to be tottering to its fall "Acute differences between Mussolini's henchmen and the army are reported and the name of Marsha! Badoglio is mentioned in connexion with rumours of an imminent rupture and a possible coup d'etat.

The departure of many Italian Ministers for the Albanian front is attributed by Rome diplomatic circles to serious divergencies between the army and the Fascists, as well as the embitterment of the Italian people at the Greek adventure.

According to the London Times ! correspondent on the Italian fromtier yesterday, certain diplomatic HITLER'S quarters in Rome declare that many Italian generals are convinced the war against England DESPERATE cannot be won, and few Italian military experts believe in a Ger- GAMBLE man victory.

German support for Italy is: by agreement, confined so far to the air force, but the belief that Germany is using the agreement as a pretext for sending large numbers of police, and even troops, into Italy arouses strong resentment among the military and the Greater ordeals and personal risks masses, who are quite apathetic than ever before may be faced by regarding the Greek war.

FASCIST-CROWN BREACH

Relations between Mussolini and the Crown are said to have lost much of their one-time cordiality, efforts will be frustrated. and the differences between the Duce and Marshal Badoglio are said to be widening.

answer "suli Britain. If this sand holds, all holds in the end. The greatest blow of all is to come. I am telling you that the people of Britain were never more ready and more better prepared than they are today," remarked PROFESSOR ARTHUR NEWALL in a broadcast from London yesterday.

The speaker also quoted what an American writer had said, The British people, will surely hold on even if they have a hold of part of Hitler's pants with one tooth.' At the outset, Prof. Newail said iong range artillery had been turned on Washington and had found recoil like a boomerang in the speech that Hitler made. Since then, Prof. Newall continued, we had not paid much attention to the re-terated raving. But he would mention this latest speech only for the reason that it contained dire threats to the United States, namely, the torpedoing of ships and that if America attempted intervention in the European conflict it would bring about an immediate change in Germany's

The speaker added that if Hitler had studied American history at all he would be reminded of the years 1916 and 1917 when the patient Woodrow Wilson sent letters to the German Government concerning U-boat warfare.

During the past week not only Hitler raved but also Admiral Raeder whose speech at Kiel was an attempt to pep up the dock workers. Difficulties In Invasion Of Britain

WHAT MUST THE GERMANS DO TO SUCCEED IN AN IN-VASION OF BRITAIN?

This question was dealt with in a commentary from London yesterday when the speaker declared that the first thing they would have to overcome would be the difficulties of transport.

It was useless sending over a few ships-that would be sheer suicide. carrying planes.

OTHER DIFFICULTIES

Transport was the first thing that the Germans would have to overcome successfully. British resistance was second, Britain would fight in the air, on the sea and on land. Already the R.A.F. had sent hundreds of German planes crashing to the ground and driven off the survivors.

The Royal Navy would fight on. Britain would also fight on land if the Germans reached her shores. Including the Home Guard, there were now four-million fully trained and well-equipped men standing ready to meet and destroy the invader.

ANTI-VICHY CAMPAIGN

The campaign against Vichy was now being conducted with raordinary violence and it was be coming apparent that a decision would soon have to be made. As one German-controlled newspaper stated, "Ir Vichy does not se this last opportunity to accede to German demands, a solution may have to be found to the sound of guns".
